DETAILED ACTION

1. This Office action is responsive to the following communication: Original Application filed on 8 April 2004.
2. Claims 1-33 are pending and present for examination. Claims 1, 17, 24, 31, 32 and 33 are independent.

Election/Restrictions

3. This application contains claims directed to the following patentably distinct species:
 - a. Embodiment 1: A ranking system that ranks randomly ordered search results with searches over collections of digital artifacts (See Figure 1);
 - b. Embodiment 2: An alternative ranking system that employs relevance functions to rank search results (See Figures 2 and 6);
 - c. Embodiment 3: An alternative ranking system that utilizes thresholding to facilitate returning ranked search results (See Figure 3);
 - d. Embodiment 4: An searching system that ranks returned results based on relevance (See Figure 4);
 - e. Embodiment 5: An alternative searching system that ranks returned results based on relevance (See Figure 5);

The species are independent or distinct because they are directed to different and alternative embodiments of ranking and ordering search results.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

4. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any

Art Unit: 2161

claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

5. A telephone call was made to Himanshu Amin on 7 December 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.
